Monday 16th May 2016

Dear Parents/Carers,

Reculver Church of England Primary School has been invited to take part in an exciting Oxford University Mathematical Reasoning project this year. The programme has been used in other schools where it has been shown to improve children's numeracy ability.

I am delighted to tell you that your child's class has been chosen to take part in the project. The project is designed to develop children's understanding of the relations between numbers and quantities. The teaching programme will cover 12 lessons, one lesson each week for a 12 week period. During other lessons we will continue with our normal teaching plans. These mathematical reasoning lessons will be part of the way we teach numeracy to children in Year 2.

Enclosed with this letter is an information leaflet from Oxford University, giving you more details about the project. **The reply slip only needs to be returned if you do not want** your child's Unique Pupil Identifier to be released to the project team. At this time, to facilitate the project, **please return this form to Mr Farrant, by Friday 20th May 2016.**

If you have any questions about the letter, please do not hesitate to come and talk to me about it.

Kind regards,

Mr Farrant
